Introduction and Induction of BS Program:

Govt. College for Women, Skardu is the most prestigious female educational institution of Baltistan. Since last 30 years, it has been serving local society by spreading female education in Arts and Science till graduation. The College Faculty is proud of being able to create and train almost two generations of the area. Last 30 years were not spent only to educate the girls but also to change the lives of local females toward highly qualified professionals.

After three decades of routine college education till B.A/B.Sc now, the College taken its 2nd step towards higher education as directed by HEC to start BS Degree in 02 disciplines in 2019 . Initially it was like a dream, as because the area is deficient of resources.

By the grace of God, College administration and faculty showed enthusiasm for the said task, realizing that the new education system is not only necessary to adopt but also an important link towards post-graduation.

“ Education is the most powerful weapon which you can use to change the world”.

For above purpose, the adaptation of positive changes is necessary. Our students have to face the challenge of competition all over the world. The new education system will help them in learning and connecting for further studies throughout the world.

We are fortunate to be chosen ones to develop the roots of new system. In 2019 we started BS Degree in two disciplines and it will surely end up in more options and lead the college towards a degree awarding institute. We are also thankful to the University of Baltistan, Skardu for giving the affiliation and facilitating all the problems and feel proud to be the part of the University . The first induction will be a strong bridge between the college and University.

Principal's Message:

Some people believe and develop a plan,
Some people doubt. Never think they can;
Some people face hurdles and give it their best:
Some people back down when there is a test.

Welcome dear daughters! I am excited to see you growing as dynamic empowered women with a mindset to contribute positive and constructively for the betterment of the society of Gilgit Baltistan.

Keeping in view our history, individuality and culture of Gilgit Baltistan a pivotal role of Education lies in shaping the personalities of students helping them transforming into future leaders and role models.

Empowered women who knows how to play their different assigned roles more enthusiastically and with full knowledge and acquisition mission. Girls in our society have more challenges than other areas of our country. World of competition leads to Stress and frustration we need to mentor and equip ourselves to combat with the Challenges through education.

The college has a tradition of inculcating values in students developing their intellectual and mental abilities want you to work hard with full devotion and not impose on yours up considering your educational career as dull and dreary, instead work with a passion and purpose.

We have a highly committed team of faculty to assist you. I wish you every success.

Aameen prayers.

**MEHREEN RUBAB
